Dear TECS Parent,

You are receiving this notice because your student was recently exposed to someone in one (or more) of their classes who tested positive for COVID-19 or the variant. We wish to inform you of this exposure so that you may help us mitigate the further transmission of the virus. The following are guidelines from the health department:

There are no recommended restrictions for students or staff who:

- Regularly wear a mask; or
- Have had COVID-19 in the last 90 days; or
- Have been fully vaccinated.

If a student or staff member does not meet any of the above criteria, the exposed individual is strongly recommended to:

- Quarantine at home for 10 days; or
- Wear a mask at all times while at school during the 10-day period following exposure; or
- Wear a mask at all times while at school during a 7-day period and remove the mask if you test negative on day 7.

Anyone who has been exposed to COVID-19 should monitor for symptoms and seek testing at the onset of any symptoms.

We appreciate your cooperative efforts to help keep all of our students and staff safe and healthy.

Sincerely,

Shem Smith
Principal
